## Summary

---

Motivated and curious BSc.IT student with a strong passion for Data Science and emerging technologies. Actively developing skills in Python, data analysis, and machine learning through online courses and self-led projects. Known for strong problem-solving abilities, logical thinking, and a keen interest in applying data to real-world challenges. Seeking an entry-level opportunity to grow as a data professional and contribute to meaningful, data-driven solutions in a collaborative environment.

## Skills

---

- Python (Basics, Data Analysis, Pandas, NumPy)
- SQL (Basic queries, Joins, Data retrieval)
- MS Excel (Formulas, Charts, Pivot Tables)
- Data Visualization (Matplotlib, Seaborn)
- Problem Solving using Logic and Algorithms
- Basic understanding of Machine Learning concepts
- Quick Learner and Adaptable
- Analytical Thinking
- Time Management
- Strong Communication Skills
- Team Collaboration
- Attention to Detail
- Critical Thinking
- Self-Motivation
- Curiosity and Willingness to Learn
- Research and Information Gathering
- Basic Presentation Skills
- Positive Attitude
- Accountability and Responsibility
- Resilience and Perseverance

## Education

---

**Mangalayatan University | Jun 2025 – Currently Pursuing**

Bachelor in Computer Science
